

Role	Name	Manifesto
President	Madeline Wilkinson	As a co-founder of CHCS I have a very detailed experience of the inner workings of running a society and CHCS specifically. This year I have acted as treasurer and gained experience on how to run a society by working closely with Frances. I wish to be president specifically, because after the wonderful progress CHCS has made in its first year, I would love to be a driving force behind a second successful year.
ED&I and Welfare	Erin May	Myself and many of the people I love- my mum and my friends- have chronic health conditions. I would love the opportunity to help the CHCS in creating and assisting in accessible events, and supporting members!
Secretary	Ella Thompson	Good note making skills (honed by 3 years of hard work at uni)
Social Media Secretary	Gretel White	I know my way around the social media platform and I regularly read articles relating to my chronic illness. I like to share this information to educate others and social media is a powerful tool to do this. I have good time management and organisation skills so would be fully committed to posting and providing information about the society and the events it's hosting.
Treasurer	Reilly Adams	I have been the E,D&I for a year and have enjoyed helping to build a community for chronically ill students. I am passionate about improving the experience at Bristol for chronically ill students as i have first hand experience of how hard it can be.
